PLATFORMS:—The cost of the platform is in addition to above prices, but will be refunded if returned to the Nursery.

We endeavor always to better serve the requirements of our increasing number of satisfied customers. In keeping with this firm policy we offer many services for your benefit.

1. Service — We take pride in supplying plant material when the customer needs it.

2. Rare and unusual plant material source— Many of your customers want something “different” in their landscape. Such plants are becoming scarcer as the demand increases. Within the limits of availability and demand we grow and locate this type of material. Many such items are listed throughout catalog.

3. We offer top grade bare root plant material, Oregon grown and hardy, **SPRING DELIVERY**, priced to give you a good profit on immediate resale or on future sale after growing on in your nursery. Prices quoted are net F.O.B. our nursery — there are no freight, boxing or handling charges to be added. See special section in back pages. Those customers who use large quantities of this fine stock please contact us so that we may quote on your requirements.

4. Considerable B & B plant material will be available to save you time.

5. We have a special “canned stock” area which includes many items ready at all times for quick, neat pick up — Summer included.

6. We are growing an increasing number of rock garden plant material due to increased interest in this phase of landscaping. Items marked with dot (•).

7. We are pleased to locate material for you if this problem arises.

8. We have increased our “growing” nursery operation due to your increasing patronage and faith in our reliability. This major step will enable us to better serve you in greater variety and in greater depth.
